

LA FARMACIA CLINICA SECONDO LE ALTRE SOCIETA' SCIENTIFICHE:

SOCIETA' SCIENTIFICA	DEFINIZIONE	SITO WEB
American College of Clinical Pharmacy (ACCP)	<p>VISION: The American College of Clinical Pharmacy will drive positive changes in health care as the professional organization most influential in advancing clinical pharmacist roles and responsibilities to optimize pharmacotherapy in the prevention and treatment of disease.</p> <p>MISSION: The American College of Clinical Pharmacy's purpose is to improve human health by extending the frontiers of clinical pharmacy.</p> <p>Through strategic initiatives, partnerships, collaborations, and alliances, ACCP:</p> <ul style="list-style-type: none"> • Provides leadership, professional development, advocacy, and resources that enable clinical pharmacists to achieve excellence in practice, research, and education. • Advances clinical pharmacy and pharmacotherapy through the support and promotion of research, training, and education. • Promotes the generation of innovative science, development of successful practice models, and dissemination of new knowledge to advance pharmacotherapy and patient care. 	https://www.accp.com/about/mission.aspx
European Society of Clinical Pharmacy (ESCP)	<p>The Aim of the European Society of Clinical Pharmacy is to develop and promote the rational and appropriate use of medicines (medicinal products and devices) by the individual and by society.</p> <p>ESCP encourages the development and education of clinical pharmacists in Europe, and facilitates sharing experiences and skills amongst clinical pharmacists all around the world.</p> <p>The Society acts in that way through the following objectives:</p> <ol style="list-style-type: none"> 1. Providing a forum for the communication of new knowledge and developments in clinical pharmacy; 	https://escpweb.org/activities/index

	<ol style="list-style-type: none"> 2. Promoting the value of clinical pharmacy services among other health care professionals, among scientific societies that share the same interest and generally within the Health Care System; 3. Enforcing the formation of activities in the field of clinical pharmacy and pharmacotherapy through conventions and specific courses; 4. Teaching clinical pharmacy at pre- and post graduate level; 5. Promoting multi-centre research in all areas of clinical pharmacy; 6. Promoting the involvement of pharmacists in clinical trials; 7. Producing a number of publications on clinical pharmacy; 8. Promoting a more widespread use of clinical pharmacy publications. 9. Reinforcing the involvement of the pharmaceutical industry in clinical pharmacy 	
UK Clinical Pharmacy Association (UKCPA)	<p>VISION: Our vision is to continue to foster and support excellence in clinical pharmacy practice in order for practitioners to provide outstanding patient care.</p> <p>Our mission statement The UKCPA promotes expert practice in medicines management for the benefit of patients, the public and members by establishing standards, workforce development and advancing innovation in all health care settings. The UKCPA encourages excellence, leadership and partnership</p> <p>Vision: Our aspirations</p> <ul style="list-style-type: none"> • Our strength is our members – the experts in clinical pharmacy. Growing our membership not only increases our strength as an association, but also allows that outstanding resource of expertise to share its knowledge and experience with a wider audience, and promote expert practice. • We want pharmacy practitioners to be proud to be a UKCPA member, to be loyal, to have a mutually beneficial relationship with the association. We want 	https://ukclinicalpharmacy.org/about/our-mission-vision/

	<p>members to aspire to be involved in UKCPA activities, committees and projects: for it to reflect their expertise and commitment to the profession.</p> <ul style="list-style-type: none"> • We will maintain and enhance our professional reputation in all areas of the organisation in order to be respected, valued and esteemed by the healthcare community. We want our members to be recognised as experts in the use of medicines by colleagues in medical, nursing and allied health professional disciplines. We also want our members to be in a position to work with and influence national strategies for the treatment of acute and long term health conditions. • We will work towards establishing best practice standards for quality in all areas of clinical pharmacy in order to ensure safe, effective and efficient patient care. • We will encourage our members to strive for excellence. We will provide professional development support through education and training events, tools and frameworks and by providing access to expertise. • We will strive to deliver high quality, highly respected, relevant and inspirational educational and training events. • We will advance healthcare innovation by supporting and encouraging research, and by celebrating the successes and achievements of our members. • We will encourage advanced practice by creating and maintaining mechanisms for practitioner-to-practitioner mentoring and networking within our membership. • We will encourage leadership in our members and as an Association. Leaders learn from experience and from role models: the leaders in our membership will be encouraged to mentor other members, and to pass on their experience and inspire others. • We will collaborate with others to provide a stronger,

	<p>better service for our members. Working in partnership to improve our effectiveness as an organisation will provide our members with better value for money. Working in partnership to share and disseminate expertise and best practice, and to achieve common goals will benefit both practitioners and patients.</p> <ul style="list-style-type: none"> • We will be transparent and robust in our processes and decisions in order to provide the best value services for our members. We will strive to engage with our members so that UKCPA is truly a member led organisation. • We will continue to develop UKCPA as a practitioner and member led organisation with the capacity and sustainability to deliver our mission and achieve our vision. 	
<p>French Society of Clinical Pharmacy (Societe Francaise de Pharmacie Clinique)</p>	<p>The society aims to promote clinical pharmacy and to train practitioners to its application. In this context, SFPC initiate and develops scientific work of clinical pharmacy led by multidisciplinary task forces (therapeutic education, medicines reconciliation, pediatrics, geriatrics) in collaboration with other medical learned societies. SFPC also redacts and shares good professional practices and organize exchange events.</p>	<p>https://sfpc.eu/presentation/</p>
